Name	Category	State Figures to Include/Add to Local Figures	Definition
Electronic Books (eBooks)	Collection	MTLib2Go: **9,338** EBSCOHost e-books (available to MSC libraries): **9,111**	E-books are digital documents (including those digitized by the library), licensed or not, where searchable text is prevalent, and which can be seen in analogy to a printed book (monograph). Include non-serial government documents. E-books are loaned to users on portable devices (e-book readers) or by transmitting the contents to the user's personal computer for a limited time. Include e-books held locally and remote e-books for which permanent or temporary access rights have been acquired. Report the number of physical or electronic units, including duplicates, for all outlets. For smaller libraries, if volume data are not available, the number of titles may be counted. E-books packaged together as a unit (e.g., multiple titles on a single e-book reader) and checked out as a unit are counted as one unit. Report the number of units. Report only items the library has selected as part of the collection (exclude public domain/uncopyrighted e-books that have unlimited access).
